

# EMR Training & eHealth Support

Giiwednong Health Link is proud to offer comprehensive EMR services designed to meet the needs of local health centres. From staff training to custom form development, we're here to help you make the most of your EMR system.

## EMR Training Solutions

Hands-on, role-specific training to build confidence and enhance efficiency.

- New User Training
- Get new staff up to speed with personalized, step-by-step guidance.
- Calendar & Appointment Usage
- Learn to manage bookings, rescheduling, and daily workflows with ease.
- Patient Charting
- Master the essentials of accurate, thorough, and timely documentation.
- Department-Specific Workflow Development
- Customized training to reflect the unique needs of each department in your health centre.

## Custom Form Development

We build tailored EMR forms that align with your clinic's specific documentation needs, reducing clicks and boosting accuracy.

## Custom Report Generator Development

Create customized reports to track clinic performance, patient trends, and other key indicators - quickly and efficiently.

## Reporting & Dashboards

Visualize important data in real time with user-friendly dashboards and automated reports. Make smarter decisions, faster.

## Auditing & Data Integrity Training

Ensure EMR compliance and data quality with best practices for internal audits and documentation review.
